Still one of the most addictively fun little distractions ever made. Love to go back every now and then just for a quick diversion occasionally. Just watch one of the demo videos and you'll know all you need to know about gameplay. With the cool backing soundtrack, the fun little sound effects and fanfare melodies when you make a good shot or get an extra life or clear a level, and all the cool power-ups. it's just fun to waste time in it and try to beat your high score.. Quite a fun game, despite being mostly

luck based. Although I'm sure there's someone out there that take 10 minutes per shot to find the most optimal angle possible. But it's more fun to shoot like a chimp and see what you hit..
